

ABOUT WEERTS GROUP

Weerts Group is a family-owned group, headquartered in Liège, Belgium, with pan-European operations in 3 key complementary sectors: Logistics, Real Estate and Motorsport.

Geographically, its main activities take place in the Benelux, United Kingdom, France, Germany, Hungary and Romania, but the motorsport team provides a window to the world, participating in races on five continents.

The Logistics Division provides contract logistics services on various sites in Belgium.

The Real Estate Division is active in 3 assets classes in 8 countries:

- Residential Real Estate in Belgium and Luxembourg;
- Logistics and (semi-)Industrial Real Estate in Belgium, the Netherlands, United Kingdom, France, Germany, Hungary and Italy;
- Office Real Estate in Romania.

The Motorsport Division sees its racing team (WRT) participate in various championships around the globe. WRT's subsidiary AMP is active in manufacturing and preparing race cars.

Purpose

The purpose or reason of existence of the Weerts Group is "Building Engines for Value Creation". We are building, ever up to the next level. We aspire to create value. For our clients, for our employees, for the shareholders and for the community at large. But we don't merely want to create value. We want to build organizations that, by their very design, become value generators (*"We don't tell time; We build clocks"*).

Mission

Our mission is to become one of the leading enterprises in Wallonia by 2025, respected in the business community for its success and in the larger society for the sustainable and social way in which it was achieved.

To realize our mission and show us the way forward, we want to hire the best.

VACANCY : BREEAM-consultant

Job description

- You provide support in the field of sustainability with a view to sustainability certification for new buildings, renovations and existing buildings whereby BREEAM is the main rating system used (see also www.BREEAM.com).
- As the lynchpin between different parties (designers, study bureaus, contractors, architects, etc) you professionally assist your colleagues in the realisation of our sustainable projects
- You request the necessary evidence or create it yourself and check whether it complies with the regulations.
- As Project Support you coordinate the entire construction team with the aim of achieving the BREEAM requirements and you steer the team where necessary.
- You will carry out BREEAM sub-studies and analyses in collaboration with external consultants and ensure that a solid final report and the actual certification are produced.

Profile

- Bachelor or Master in Environmental Sciences, Ecology, Sustainability Management or Construction or similar
- Interest in technology
- You work accurately, systematically and with ease coordinate various processes and domains (energy, waste, water, ecology, etc)
- Solution-oriented thinking
- Passion for sustainability
- First experience in project development, project realisation and management, or certification of buildings in which knowledge of BREEAM/LEED/WELL is an added value is an advantage

Personality

- Positive attitude, driven
- Entrepreneurial, takes own initiative
- Team player
- Integrity, loyalty & honesty

Development opportunities: want a job where you can progress? We are a fast growing dynamic company with plenty of development opportunities within the Weerts Group or our other entities.

Our headquarters are based in Milmort (Liege area).
